Villas Deck Staining

The Villas decks will be re-finished this year. The Board has requested that the work be done after Labor Day, but Marcus Management needs to determine the availability Supreme Deck Restoration. This company did our decks 3 years ago. Supreme Deck Restoration will apply the same stain that is currently on the decks. Marcus Management will provide more information as to when the work will be started, and what the co-owners need to do to prepare for this work.

Villas Building Painting

The Villas building painting will begin this year and will be finished next year. Below is the schedule for building painting, by address.

<u>2011</u>	<u>2012</u>
32900, 32902, 32904, 32906	32908, 32910, 32912, 32914
32901, 32903, 32905, 32907	32909, 32911, 32913, 32915
32948, 32950, 32952, 32954	32916, 32918, 32920, 32922
32956, 32958, 32960, 32962	32917, 32919, 32921, 32923
32949, 32951, 32953, 32955	32924, 32926, 32928, 32930
32957, 32959, 32961, 32963	32925, 32927, 32929, 32931
32965, 32967, 32969, 32971	32932, 32934, 32936, 32938
32973, 32975, 32977, 32979	32933, 32935, 32937, 32939
32981, 32983, 32985, 32987	32940, 32942, 32944, 32946
	32941, 32943, 32945, 32947

The trim, garage door, and main entrance door will be painted for each unit. Marcus Management is working on the schedule with City Wide (paint contractor), and will provide further information to the co-owners.

Landscape Beds

Pre-emergent will be applied to the annual flower area of the landscape beds to prevent weeds. Work has begun on replacing the dead and missing landscape items in the beds. The landscape company has recommended adding mulch to the landscape beds, and the Board is evaluating the recommendation.

Annual Flowers

The annual flowers will be planted in June at the main entrance and in the Villas landscape beds (end units).

Lawn Fertilization

A plan has been established for improving the lawn condition, and the work has begun. Hopefully, the weather will cooperate this summer, so that, we can see improvement in our lawn. There are 12 Villas units with sink holes in the lawn. A plan has been approved to improve drainage, adjust the grade, and add Hydroseed.

Villas Walkway Leveling

Many of the Villas walkways have leveling issues. Some are worse than others. Two were fixed last year, and seem to remain level. A plan has been approved to fix the worse case ones this year, with the remainder being fixed next year.

Estates Islands

MMI is working with a company to provide design proposals for the Estates islands. The Board has requested that the design proposals be made assuming no in-ground irrigation. Watering, other than rain, will be done manually.

Security Sign

Based on feedback from the Villas co-owners, the Board voted to allow 1 security sign to be placed in the landscape bed (common element) adjacent to the front entrance steps.
